Story type:	Community policing
Start publish date:	26 Jun 2012
Province:	Free State
Heading:	JACOBSDAL COMMUNITY CLEANING FOR THEMSELVES
Story:	<p>VUKA SENZELE was the topic of the day 15 June 2012 when the community, Bopa Lesedi, CPF, Kutlwisiso and People against abuse cleaned their own town. When interviewed they said they can't wait for the municipality to clean Jacobsdal while there's capable citizens to do it. Jacobsdal is their town and ownership must be excised. They further said that there's no one who will come from outside to clean their town, they must do it themselves.</p> <p>Mr Jantjies the councillor said that Jacobsdal is on the right track. The community must take ownership of their town. It shows that the community has interest in building their community. He also thanked WO Oosthuizen an Const. Whittles for always being available when duty calls. The community now knows that the police is not all about "trap en skop" but render a service. He wished that all police to show this kind of commitment, putting the people first.</p> <p>People against abuse catered for this event and was all enjoyed at a later stage. Mr Sebaku said that the community must always be available when there's projects in Jacobsdal.</p>
