ANNEXURE C: PERSONAL DEVELOPMENT PLAN (PDP)

Explanatory Notes to the Personal Development Plan

1. Introduction

- 1.1 A Municipality should be committed to –
- (a) the continuous training and development of its employees to achieve its vision, mission and strategic objectives and empower employees; and
 - (b) managing training and development within the ambit of relevant national policies and legislation.
- 1.2 A Municipality should follow an integrated approach to Human Resource Development, that is:
- (a) Human resource development should form an integral part of human resource planning and management.
 - (b) In order for a municipality's training and development strategy and plans to be successful it should be based on sound Human Resource (HR) practices, such as the (strategic) HR Plan, job descriptions, the result of regular performance appraisals, career pathing, scarce skills a talent management and succession planning.
 - (c) To ensure the necessary linkage with performance management, the municipality's Performance Management and Development System should provide for the Personal Development Plans of employees to be included in their annual Performance Agreements. Such approach will ensure the alignment of individual performance objectives to the municipality's strategic objectives, and that training and development needs are also identified during the performance management and appraisal process.
 - (d) Career-pathing and succession planning ensures that employees are placed and developed in jobs according to aptitude and identified potential and through training and development acquire the necessary competencies to prepare them for future positions. Scarce skills and talent management also requires appropriate training, education and development interventions.

2. Compiling the Personal Development Plan attached as the Appendix.

- 2.1 The aim of the compilation of Personal Development Plans (PDPs) is to identify, prioritise and implement training needs
- 2.2 The minimum competency requirements for senior managers as set out in the Regulations on Appointment and Conditions of Employment of Senior Managers (17 January 2014) provides comprehensive information to the PDP process. The Municipal Finance Management Competency Regulations, such as those developed by the National Treasury and other line sector departments' legislated competency requirements need also be taken into consideration during the PDP process.

2.3 The assessment results of a manager against the minimum requirements contained in the managerial competency framework and occupational competency profiles will assist a manager, in consultation with his/her employee, to **compile a Personal Development Plan** as follows:

(a) The identified training needs should be **entered into column 1 of the Appendix, entitled Skills / Performance Gap**. The following should be carefully determined during such a process:

(i) Organisational needs, which include the following:

- Strategic development priorities and competency requirements, in line with the municipality's strategic objectives.
- The competency requirements of individual jobs. The relevant job requirements (job competency profile) as identified in the job description should be compared to the current competency profile of the employee to determine the individual's competency gaps.
- Specific competency gaps as identified during the probation period and performance appraisal of the employee.

(ii) Individual training needs that are job / career related.

(b) Next, the **prioritisation of the training needs [1 to 5] in column 1 should also be determined** since it may not be possible to address all identified training needs in a specific financial year. It is however of critical importance that training needs be addressed on a phased and priority basis. This implies that all these needs should be prioritized for purposes of accommodating critical/strategic training and development needs in the HR Plan, Personal Development Plans and the Workplace Skills Plan.

(c) Consideration must then be given to the **outcomes expected in column 2 of the Appendix**, so that once the intervention is completed the impact it had can be measured against relevant output indicators.

(d) **An appropriate intervention** should be identified to address training needs/skills gaps and the outcome to be achieved but with due regard to cost effectiveness. These interventions should be listed in **column 3 of the Appendix, entitled: Suggested training and / or development activity**. The training/development must also be conducted either in line with a recognised qualification from a tertiary institution or unit standards registered on the National Qualifications Framework (South African Qualifications Authority), which could enable the trainee to obtain recognition towards a qualification for training undertaken. It is important to determine through the Training/Human Resource Development/Skills Development Unit within the municipality whether unit standards have been developed with regard to a specific outcome/skills gap identified (and registered with the South African Qualifications Authority). Unit standards usually have measurable

assessment criteria to determine achieved competency. There is more detail on this in item 4 below.

- (e) **Guidelines regarding the number of training days per employee and the nominations of employees:** An employee should on average receive at least five days of training per financial year and not unnecessarily be withdrawn from training interventions.
- (f) **Column 4 of the Appendix: The suggested mode of delivery** refers to the chosen methodology that is deemed most relevant to ensure transfer of skills. The training/development activity should impact on delivery back in the workplace. Mode of delivery consists of, amongst others, self-study [The official takes it upon him/her to read e.g. legislation]; internal or external training provision; coaching and/or mentoring and exchange programmes, etc.
- (g) The **suggested time frames (column 5 of the Appendix)** enable managers to effectively plan for the annum e.g. so that not all their employees are away from work within the same period and also ensuring that the PDP is implemented systematically.
- (h) **Work opportunity created to practice skill/development areas, in column 6 of the Appendix,** further ensures internalisation of information gained as well as return on investment (not just a nice to have skill but a necessary to have skill that is used in the workplace).
- (i) The final column, **column 7 of the Appendix,** provides the employee with a **support person** that could act as coach or mentor with regard to the area of learning.
