- 3.2 Basic services are generally regarded to be access to electricity, access to clean water within a reasonable distance of one's dwelling, basic sanitation, solid waste removal and access to and availability of roads.
- 3.3 The Constitution recognises Local Government as a distinct sphere of Government and as such also entitles Local Government to a share of nationally raised revenue, which will enable it to perform their basic function of providing essential services to the community within their boundaries.
- 3.4 The key purpose of an indigent subsidy policy is to ensure that households with no or lower income are not denied a reasonable service, and on the contrary the Municipality is not financially burdened with non-payment of services. Provided that grants are received and funds are available, the indigent subsidy policy should remain intact.
- 3.5 To achieve the purpose it is important to set a fair threshold level, and then to provide a fair subsidy of tariffs.

4.8 White Paper on Local Government

5. POLICY BACKGROUND

The policy seeks to guide Letsemeng local municipality to address poverty, unemployment and inequality. The triple challenges are determined by Letsemeng local municipal economic profile extracted from the municipal IDP.

MUNICIPAL ECONOMIC PROFILE

The status of the municipality's economy epitomizes the legacy of apartheid thought its skewed development among former white areas and townships. All communities are affected in terms of poverty and development deficit. Upliftment of the local economy has therefore been identified as a key focus area for the Municipality.

Unemployment

On average 22.3% of the population in Letsemeng is unemployed, with the highest rate of unemployment being in rural areas. This high unemployment rate has serious repercussions on the ability of the residents of Letsemeng to pay for their daily needs. Unemployment is more than 21% in all of the areas and is the highest in Luckhoff at 32%

Household income

Household income is a parameter which is, amongst others, also indicative of poverty levels within a community. A financially healthy community's household income usually displays a so-called "normal" income distribution pattern where the income is spread over a fairly wide range of income categories, and the income of the bulk of the community is situated more or less within the first half to two thirds of the income category range. Females are more likely to be unemployed and looking for work more than males.

Poor communities are sometimes highly dependent on the environment for coping and survival purposes and, in this regard, almost always over-exploits the environment only 10.2% of households in the Letsemeng Municipal fall within the "No income" category. Of concern is that 7.4% of the households in Letsemeng have an income of less than R 10 000 and 23.9% of the households have an annual income of less than R19 601.00

LETSEMENG LOCAL MUNICIPALITY: INDIGENT SUPPORT POLICY

6. POLICY PRINCIPLES

6.1 It is against the above background that the Letsemeng local municipality undertakes to promote the following principles:-

- To ensure that the portion for free basic services allocated as part of the equitable share received annually will be utilised for the benefit of the poor only and not to subsidise rates and services charges of those who can afford to pay;
- To link this policy with the Municipality's Integrated Development Plan (IDP), Local Economic Development (LED) initiatives and poverty alleviation programmes;
- To promote an integrated approach to free basic service delivery; and
- To engage the community in the development and implementation of this policy.

7. POLICY OBJECTIVES

In support of the above principles the objectives of this policy will be to ensure the following:-

- a. The provision of basic services to the community in a sustainable manner within the financial and administrative capacity of the Council;
- b. The financial sustainability of free basic services through the determination of appropriate tariffs that contribute to such sustainability through cross subsidisation;
- c. Establishment of a framework for the identification and management of indigent households including a socio-economic analysis and an exit strategy;
- d. The provision of procedures and guidelines for the subsidisation of basic charges and the provision of free basic energy to indigent households;
- e. To ensure co-operative governance with other spheres of government; and
- f. To enhance the institutional and financial capacity of the Municipality to implement the policy.

8. SCOPE OF APPLICATION

Any household which is responsible for the payment of services and rates, earning a combined gross income equivalent to or less than two times the Government pension grant as prescribed by the National Department of Social Development or in line with the National Indigence Framework issued by the Department Local Government (DLG), who qualify, according to the policy, for rebates/remissions or a services subsidy. LETSEMENG LOCAL MUNICIPALITY: INDIGENT SUPPORT POLICY

The socio-economic information and performance indicators contained in these documents must form the basis for the targeting of indigent households. Against the background of such socio-economic analysis, the Municipality must within its financial and institutional capacity decide which targeting approach or option should be applied.

9.2 The Municipality may apply the following targeting methods:-

Targeting approach	Application
1. Service levels	Lowest service levels normally in informal settlements and rural areas.
2. Property value	Applicable only to registered indigents in respect of subsidised or RDP housing to a value determined in addition to the R15 000 in terms of the Property Rates Act, 2004.
